

# Agricultural Machine Applications

---

## Tractor

Self-driving with navigation GPS + MEMS/INS

## Rice Planter

Measures direction with GPS + MEMS/IMU. Supports & guides straight line planting with self-driving.

## Combine Harvester/Binder

Guides & supports straight line travel.

## Features:

Self-Cultivation: High accuracy positioning utilizing MEMS IMUs & RTK-GNSS  
Straight Line Travel Support: Measures position with IMU and supplemented direction from GPS

Tamagawa also manufactures steering motors & drivers.
